HYPERGENE CONSULTING SERVICES

BLUE ANT IMPLEMENTATION WORKSHOPS

Our consulting team provides you with support during the introduction, installation, basic configuration and ongoing operation of Blue Ant. Solutions for process improvements and the implementation of Blue Ant into existing company processes are developed during workshops. This also includes the conceptual design of new processes, the configuration of interfaces and the design of reports.

› **Implementation workshop - First steps**
  Definition of workflows, roles, rights and reports

› **Implementation workshop**
  Definition of training formats and content, coordination of detailed scheduling, involvement of all relevant stakeholders

› **Migration workshop**
  Definition of data transfer and planning of migration steps

› **Methods: Project landscape and project life cycle**
  Support in defining a sensibly structured project landscape

› **Methods: Resource management**
  Support in defining resource handling in the line and projects

› **Methods: Single-project management**
  Consolidation or expansion of basic project management understanding

› **Special topic: Ticket system**

› **Special topic: Rights system**

› **Special topic: Interfaces**

›› Introducing multi-project management software requires a high level of project management maturity and stable administrative processes in the company. **In order to achieve this, Hypergene provides knowledge and experience from several hundred implementation projects over the last 20 years.**

NORMAN FRISCHMUTH
Managing Director
Hypergene GmbH

›› We provide you with PM know-how in the form of consulting, training and ongoing support so that you can concentrate on the essentials: **the success of your projects.**

THOMAS EICHLER
Head of Expert Services
Hypergene GmbH

WE TURN YOU INTO BLUE ANT PROFESSIONALS

Even after the rollout, we will accompany you in the gradual professionalisation of your project management. By providing strategic or administrative support for your project management office (PMO) and individual consulting for your project managers during the initial planning phase, we deliver the required know-how and capacities.

STRATEGIC MPM CONSULTING

› **Project maturity process**

  Development of a project maturity model based on the project type

› **Role definitions**

  Clarification of necessary rights for Blue Ant functionalities and data

› **Portfolio planning and monitoring**

  Assistance with the design of an appropriate portfolio structure and portfolio controlling

› **Resource management**

  Support in defining meaningful resource management processes

ADMINISTRATIVE PM CONSULTING

› **Project management support**
› **PMO support**
› **Migration implementation**

TECHNICAL CONSULTING

› **Rights system**

  Configuration of user rights profiles

› **Process and workflow configuration**

  Configuration of project life cycles

› **Master data setup**

  General master data maintenance

› **Customizing**

  Configuration of the Blue Ant system

› **Customizing, dashboards & views**

  Configuration of dashboard templates for projects, programs, portfolio and the start page. Central configuration of table column views

› **Interface configuration**

  Configuration of Blue Ant connectors

› **Creation of reports (BIRT)**

  Development of BIRT templates for integration into Blue Ant
